THE SOLUTION TO YOUR EVERY WISH

EUROCOMACO ITALIAN DESIGN SHOWROOM

Euro Comaco Italian Design is a company that distributes products made in Italy, founded in 1999 based in Florence / Italy.

With a twenty-year experience in the export of materials and equipment of Italian design excellence, is aimed at offering a complete service, from design to supply and to the turnkey realization of residential and commercial space and for accommodation facilities.

Our concept of architectural design and interior design come from a scrupulous analysis of the context and the customer's need to arrive at tailor-made products through functionality and aesthetics. The practicality of a single interlocutor for design, assistance and sales.

since 2015 has opened the new showroom in via Gaetano Salvemini 9-9A, Signa (FI), a space of over 500 square meters in addition to the sales offices, the interior and architectural design offices and to the logistics warehouse.

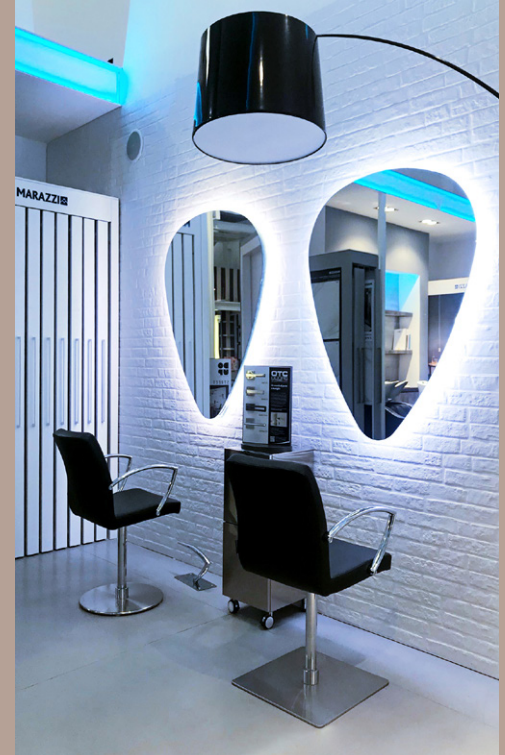

In the showroom you can touch a selection of household products, coverings, floors, furniture and sanitaryware of the best brands on the world market, including Marazzi, Casalgrande, Olympia, Globo, Jacuzzi.; all the best products of Made in Italy.

A large space dedicated to the brand Gigli&Massimo Italy thanks to Euro Comaco s.r.l. designs and creates salons for hairdressers, beauty centers and SPAs.

Thanks to the materials and finishes we have, all our customers will appreciate the quality of our products, combining them in an endless series of solutions specifically designed for your needs.

Therefore the new showroom was born thanks to a unique mix of visions, resources and experiences given by all its partners and is aimed at satisfying all the request of the client, even the most demanding.

Euro Comaco Italian Design relies on leading brands in the sector to offer products that are always new and in step with the times. For us it is not only aesthetics that are important, but also the innovation and the contemporaneity of the materials used.

ARCHITECTURAL DESIGN

Euro Comaco Italian Design and **ArkLocus+** have been working together since 2015. This cooperation comes from the desire to embark on a new path, combining the individual professional experiences of the architects M. Mortelliti, D. Pettoruso and M. Podda, with the internal design team of Euro Comaco S.r.l.. The core of the activity carried out is the planning, from the Urbanistic and Architectural to the Interior Design. ArkLocus+, architectural firm, in order to carry out projects with a high level of feasibility, places at the center of the design process a methodological approach based on multidisciplinary, using the integration of different specialized skills on the different themes.

TENDERING PROCESS

1. Selection of articles

Receive from the interior designer the schedule of item selected.

2. Budget control

Develop budgets and select for you the right companies.

3. Quote sending

We send the quotation with the prices of all the articles and services requested.

4. Preparation of goods

We order the goods in our warehouse, load the containers, prepare the packing lists with the related assembly diagrams.

5. Shipment

We prepare all the documentation useful for shipping and for any control bodies.

Our work system summarized by points

- We will send all informations and catalogues of our partners, following what is necessary for the specific project.
- All our customers are invited to Italy. Eurocomaco will take care of all the costs of permanence, excluding the cost of the flight.
- It will be the customer's responsibility to send the project sheets to Eurocomaco, specifying all the details chosen, including the surface area in square meters; size and color of the tiles; technical characteristics, dimensions, color and material of the furnishings; any additional service required.
- We will make a selection of the best articles produced by our companies, offering the best products from our catalogues.
- In case of acceptance of our proposal, we will manage the order by sending the schedule with the production times and technical information of the selected items.
- The articles will be managed by our warehouse preparing the containers for shipping.

WHY EUROCOMACO ITALIAN DESIGN?

- Because the customer has the certainty of what he buys, being able to have direct contact with the supplier and monitor his production.
- Because we offer at our expense the opportunity to come to Italy to know our suppliers and be able to touch the products.
- Because we can offer an assembly service, site supervision or specialized technicians.
- Because we have various offices located in different countries and a team of specialists ready to reach customers all over the world.
- Because we work together with a team of Architects, Engineers and Interior Designers, and we can offer solutions to all types of projects.
- Because we prepare the containers personally, we take care of customs procedures, quality controls and organize, if required, a delivery to the final site.
